PLANT:

Literature, Media, and Spiritual Invitation Log

Use this **plant** log to plan and record activities that introduce people to spiritual truth. Record the titles of any literature or digital media you share along with the names of those with whom you share it. Include mass distribution efforts also, recording the quantity and location (streets, parks, malls, etc.). Consider writing down distribution goals for each month or year. Wherever you go, carry inspiring and truth-filled literature with you (in your car, purse, etc.). Also carry cards or tracts offering Bible studies and include one with every piece of literature you distribute.

This log is also the place to plan and record spiritual invitations—to Sabbath School and church, Bible studies, evangelistic meetings, etc. Bible study invitations may include offers to study with someone personally, invitations to Bible studies led by others, invitations to watch evangelistic sermons on video, or offers to deliver free Bible study guides each week.
